Bachelor's degree
Faculty: Algorithmic languages and programming

Private courses in Automotive Electrical Systems
(2019-2021)

Served in Army
(2016-2018)

Career Goals

I'm the type of person that loves challenges and solving problems. Even if I have no idea how to solve the problem I give it a try and figure it out in the process. I always learn something new when solving different kinds of problems. Programming is all about problem solving and overcoming challenges. It fascinates me and that's exactly what I want to work with.
"Choose a job you love, and you will never have to work a day in your life"
(Confucius).
